ANY MEDICINES IN THE GLOBE, HOLLOWAY'S PILLS, ERY WONDERFUL CURE OF A DIS

18th, 1847.

To Professor Holloway.

IR,—Having taken your Pills to remove a disease of the Stomach and Liver, under which I had long suffered, and having following your printed instructions, I have regained that health, which I had thought lost for ever. I had previously had recounse to several medical men, who ere celebrated for their skill, but instead of ouring my complaint, it increased te a most alarming degree. Humanly speaking, your pills have saved my life. Many tried to diseusde me from using them, and I doubt not but that hundreds are deterred from taking your most excellent medicine, in consequence of the impositions practised by many worthless wretches; but a pity it is that the deception used by others, should be the means of preventing many unhappy persons, under disease, troar regaining health, by the use of your pills, I was no a most wretched conditions, and to my great delight, in a few days afterwards, there was a considerable change for the better, and by continuing to use them for some weaks, I have been perfectly restored to health, to the surbeen perfectly restored to health, to the sur-prise of all who have witnessed the state to which I had been reduced by the disordered state of the I. and Stomach; would to God, that every por sufferer would avail him-self of the same astonishing remedy.

(Signed) CHARLES WILSON.

Extract of a Letter from Mr. Robert Calvert, Chemist, Stokesly, dated January 29th, 1847. A DISORDER IN THE CHEST.

To Professor Holloway. To Preference Holloway.

Sir,—Mr. Thompson, National School-master of this town, desires may be and you the particulars respecting a son of his, who had been seriously ill for three years and a half, and who has derived the greatest benefit from the use of your medicines, after trying all ordinary resources without effect. The boy is eight years of age, of strumous or scrofulous constitution. He seems to have had a pleurisy which ended in a large collection of matter in the chest, which eventually formed a passage through the wates of the chest, which ended in three fattalous aures, which continued to discharge the wales of the chest, which ended in three fistulous acres, which continued to discharge large quantities of pus up to May, when he was induced to try your medicines; at this date he was in an apparent dying condition, and in the highest degree of Marsamus or Concumption. He had severe hectic fever, the urine deposing large quantities of sediment—constant distressing cough—no appetite—and the Stomach rejecting nearly everything he took, both food and medicine, he began by taking five of your pills night and morning, which were gradually increased to ten, which in a short time had the effect of completely curing the cough, the stomach affections, and restoring the urine to its natural state. His strength and flesh are also restored, and his appetite keen and digestion good. een and digestion good.
(Signed) ROBERT CALVERT.

THE BARL OF ALDROROUGH CURED OF A LIVER AND STOMACH COMPLAINT. Extract of a Letter from the Earl of Ald-borough, dated Villa Messins, Leghern, 21st

February, 1846.

To Professor Holloway.

Bir.—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your pills as you did. I now take this opportunity of sending you an order for the amount, and at the same time, to add, that your pills have effected a curs of a disorder in my liver and stomach, which all the most eminent of the faculty at home, and all over the continent, had not been able to effect; nay! not even the waters of Carlebad and Marienbad. I wish to have another box and a pot of the ointment, in case any of my family should ever require either.

Your most obliged and obedient servant, (Signed) ALDBOROUGH.

THE KNIGHT OF GWYNNE:

a Tale of the Time of the Union, by
Charles Lever, with Illustrations by "Phis."
"It is rich in incident, surprising without
being extravagant—the dialogue piquant, graceful, and characteristic, and it is most felicitious
in the art with which traits of character are
sometimes broadly given, sometimes insinuated, rather than openly expressed. It has an
air of novelty too thrown around it, which, in
a season of such literary fecundity, is a very
rare excellence. We would instance the scene
at the Priory, where the ladies (one of whom,
we anticipate, is to be the heroine of the tale) MOURNING DRESSES. we anticipate, is to be the heroine of the tale sing the adroit letter of a titled courtier —half unfe-hunter, half sentimentalist—and the game at cards, between the Knight of Gwynne and the old Marquis of Drogheds, as exquisite more caur, in which Mr. Lever, retaining all his own powers, shows himself capable of literary distinction in efforts of a new, and, perhaps, we may add, a higher description than those in which he has obtained his present calchirty. —Kessing Mail.

acription than those in which he has obtained his present celebrity."—Evening Mail.

"Made up of greater elements than any of our author's former preductions. The persons of the tale appear endowed with more than the wonted energy—the reflecting and serious have more aspacity—the men of action are more adventurously daring—and the humour of those who are to make out the merriment of the scene, is richer, without being less true to nature."—Dublin Evening Mail.

THE COTTON COLONY. Da. Lang's proposal to found a settlement to the northward of Moreton Bay, for the purpose of growing cotton, is likely to Univ has the promise of ; but as he had and the lead to some important results; and albeen robbed of his papers, of course he had a ready mode of evading any reply to inconvenient questions.

The speech of Dr. Udday contains so drawing the attention of capitalists to the immense tracts of unoccupied territory between Wide Bay and Cape York, and there is no doubt that some scheme for colonising them will be adopted. How far it will be successful remains to seen if an attempt be made, after the manner of the New Zealand Company, to found towns and gamble in allotments, it will assuredly fail, and much misery to the deluded immigrants be the consequence, but if a careful selection of an attempt and the emigrants sent out at the colony.

The speech of Dr. Udday contains so many gross absurdities, that, ignorant as people in Ragland generally are of all that relates to the colony, they could not fail of detection; and all we fear is, and thus this miserable charlatan might cause people to look with a suspicious eye upon a scheme which bids fair, under judicious management, to be beneficial to all of clock. As instances of what we conceive to be the right and the wrong in colonization, we would contrast the district of Moreton Bay, in this colony, with the district of Wellington, in New Zealand. The popu-lation of the Wellington district on the

BEFORE the CHALIMAN and GEORGE FORRES, Eaq., J.P.

Bridget Weldon, previously convicted of stealing sovereigns from the person of Catherine Cook, was sentenced to six months' hard labour in Sydney Gaol.

James Lendon was indicted for a nuisance at Newtown. Mr. FISHER appeared for the prossecution; and Mr. MICHIE and Mr. NICHOLES for the defence. The Jury having retired for some time, found the defendant guilty, with a recommendation to mercy. He was sentenced to pay a fine of fifty pounds to the Queen, or to to make the continued to the Queen, or to to the capture of the shark, and in a few hours the commendation to mercy. he partially succeeded. As soon as the circumstance became known to the inhabitants, a number of persons resolved upon attempting the capture of the shark, and in a few hours afterwards, Mr. Jones, the Barrack Sergeant, succeeded in dragging him safely to land, the voracious monster having greedily anapped at a bullock's heart, with which the hook was baited. It turned out to be a shovel nosed ground shark, and measured about nine feet six inches. Of course, the most lively curiosity on the part of the spectators to learn what he had got stowed away in his inside followed; and as is usual in such cases, they were disappointed, as the stomach was empty. On making enquiries yesterday, we learned that Mr. Stewart was getting on favourably, although very weak from loas of blood. It is not a little singular that the fears expressed in a late number of this journal respecting the safety of persons bathing in the river, should so soon have been confirmed by such a terrible example.—Morston Bay Courier.

ground that the Government could not undertake to afford protection to settlers so remotely
situated as those residing at the Boyne and
Wide Bay; while no reason, as far as we have
been able to ascertain, was issigned for the
Governor's refusal to grant licenses for the
county of Stanley. The consequence
of this state of things is, that a
f vast extent of country has been occupied by squatters on their own responsibility,
though we believe that most of them had the
courtesy to apprise the Commissioner of Crown
Lands that they were about to remove their
stock to these new countries. Of course, that
functionary had not a word to say against
their migration from one spot to another;
eneither did he hold out any hope that their
runs would be secured to them when the new
regulations came into force. The parties who
have thus got possession of runs, are of course
exceedingly anxious to obtain some expression
of opinion on the part of the Government regarding the terms upon which they will in future be permitted to occupy. They have all
along been anxious to obtain a recognition of
their squattages from the Crown lands officer,
and have tendered the amount of the license
fee, which has been invariably refused on the
grounds we have stated. Now, under these
circumstances, we consider it would be a very
great hardship if these persons were to be told
that they must tender for their runs according
to the Government notices. There would be
very little justice in this course, and we certainly do think that an exception ought to be
made in their favour, and that all parties who
were occupying runs prior to the promulgation
of the Orders in Council, provided they had
previously given notice of their intention to
occupy, and tendered the license fees to the
Commissioners, should be placed in the same
position as the other squatters who obtained
their licenses in the usual manner. We feel
satisfied that the system of putting up runs by
tender will be productive of the greatest inconvenience and annoyance to the ent

the 7th instant; but we believe the only alteration made was Mr. Thorn claiming to be enrolled as a special juror.

Malls.—From what we have heard, we believe that the old dog-carts that used to disgrace our roads are to be put into requisition again at the commencement of the ensuing year. Mr. Jones's tender for the ensuing year having been rejected, it was said that the conveyance of the mails was offered to a Mr. Dargin, at a much less sum than Jones tendered, with the understanding that he would be allowed to run with two horses. We would advise travellers to have their journey to Goulburn and Sydney over before the miserable things begin to run, or their sides will pay for their neglect.

WEATHER.—This has been the driest season we have had for a long time. The crop of hay will be very deficient, unless the rain falls immediately to secure the second crop. Sellers of hay are asking £5 per ton, but buyers are not disposed to give that as yet for it. Yesterday was a day of intolerable heat and dust; it blew a regular "brickfielder" during the after, noon.

CITY HORSE REPOSITORY. 332, PITT-STREET, TWO DOORS FROM

332, PITT-STREET, TWO BOORS FROM BROUGHAM-PLACE,

I RWIS ALEXANDER, for nearly A twenty years proprietor and partner with his father, at the Finsbury Repository, Chiswell street, Finsbury Square, and the Three Nuns Ine, Aldgate, London, (coaching establishment), begs leave most respectfully to inform his friends and the public, that he still continues to carry on his business as horse dealer, coach and cab proprietor, livery stable-keeper, &c., &c., in Pitt-street, the same as he has done for upwards of the last TRM YRABA. Hoping his English and colonial experience of thirty years will prove to the Australian public he is no humbugging impostor in his profession.

L. A. has some excellent close and open carriages, gigs, and horses, ladies' saddle horses, gentlemen's first-rate hacks, tandeme, &c., &c., on hire.

AGE,

Pour-horse coach, to Parramatta. Leaves Holman's, White Horse, George-atreet, every morning, at nine o'clock. Leaves M'Kay's, Australian Arms, Parramatta, every sfternoon, at half-past four o'clock, changing horses on the road.

at haif-past four o'clock, changing houses on
the road.

THE TURF.

Gentlemen and sportamen are requested to
notice that a four-horse stage coach will be
always ready, and will run to all the races
within fifty miles of Sydney, commencing with
the Draper's Meeting, at Homebush, on Monday, 3rd January next. Parties of pleasure
can at any time hire the conveyance on
reasonable terms, at short notice.

L. A. has much pleasure to announce to the
owners of race horses, that his son, Master
Edward Alexander, is prepared to ride any race
horse in the colony, feather weight or upwards,
his experience of five years on the turf is wellknown; his services are on his own account.

Horses taken in at livery and bait.

Boxes for entires or race horses.
Horses bought and sold on commission.
Horses broken to single and double harness.
An excellent large straw yard, for bush and
unbroken horses, with plenty of water hid on
the premises.

Supporters of this establishment will have

every attention paid to them by the proprietor and all servents connected with it. Observe,—332, Pitt-street, two doors from Brougham-place, near King-street. 9419

stock remains unsold after the 25th instant,
must, in accordance with the deed of co-partnership, be disposed of by public auction.

R. B. and Co. do not consider it necessary to
give a long list of prices, such a practice being
only resorted to for the purpose of making up
an advertisement, by those parties who are in
the habit of SELLING OFF every month in
the year.

The following are a few of the articles well

of January next, at the very low rent of £65 per annum.

As a Brewery it would suit admirably, by expending a few pounds in getting the water laid on from the pipes now laid down in Parramatte-street, so as to have it flow into the coppers, the expense of which would not exceed £30, and would be sure to remunerate any person understanding the business, and having a moderate capital to work it, there being first-rate underground cool cellarage for cleansing and storing.

There are two excellent coppers set on brick arches—contents 600 and 400 gallons, with all the other utensis and casks, fixed and moveable, to correspond, so that it might be worked within a very short time after taking possession of it; and there is a very good wire-web kiln, with two malting floors, capable of making 100 bushels of malt weekly.

The premises would also be well calculated for stering corn, there being sufficient room to store 6000 bushels—besides an excellent residence for a moderate sized family; and there is generally on the paddocks first rate feed for eattle.
